# EDITOR'S NOTEBOOK

Dear Archie Readers,

It's that time of the year again, when we all start gearing up for summer. Whether you have vacation plans, camp plans, or no plans, there's one thing you can plan on....ARCHIE'S VACATION SPECIAL #7. This issue features Archie and his friends going to a fantasy summer camp. However, "The Isle of Dreams," as the story is called, is no fantasy. This 48-page giant special will be the perfect start for your comic collection, when you head for your fantasy camp this summer.

When Ethel met Jughead, it was love at first sight. Unfortunately, the feeling wasn't mutual. In fact, sometimes, Archie's ol' pal, Jug, does not act very nicely towards Ethel. In a story called, "The Bad Old Days," Ethel, after visiting with Jughead's mother, comes across

some very revealing information about him; information that Jughead does not want known. The events that follow may be too much for you die-hard Jughead fans to comprehend. However, the story must be told. You can read all about it in issue #119 of JUGHEAD, on sale next month.

Another great comic you won't want to miss is ARCHIE & FRIENDS #36. The excitement of going on an archaeological dig is something that not too many people have the opportunity to experience. Archie and the good ol' gang get down and dirty in "Can You Dig It?" You're guaranteed to have your funny bone tickled when you read about this tale of a Jurassic "lark."

# CLUB NEWS

Margaret Miglio  
Albany, CA

and Egypt have bath houses in ruins. When discovered, they were believed to be 4,500 years old. In ancient Rome, only the wealthy could afford private bathrooms. Public bath houses became the new trend. They came equipped with facilities for warm and cold baths, steam baths, and massages. By about 20 B.C., they became social

Have you ever ran the water for your daily bath and wondered who started this sanitary tradition? Some ancient civilizations such as Babylon

Brian Novak  
Sacramento, CA  
**The Sponge**

Sponges drink lots of water and can hold about 64 glasses of it. In 1765, John Ellis noticed that a sponge can circulate water by itself. Right now, there are about 5,000 known species of sponges. A sponge is an invertebrate, a living thing that does not have a backbone. Sponges come in various sizes. Some may look like cups, trees or even vases. An animal sponge is not like the artificial sponge made to clean dishes. However, some animal sponges can be bought to use as massagers when bathing.
